

## Cross-Border, Business-Building Partnership – Master Agreement of Intent

**Whereas**, the Texas Association of REALTORS® (TAR) is recognized by the National Association of REALTORS® (NAR) as the official Ambassador Association to Mexico, and

**Whereas**, La Asociación Mexicana de Profesionales Inmobiliarios, the Mexican real estate association (AMPI), desires to create formal cross-border, business-building relationships between AMPI chapters and local REALTOR® associations in Texas, and

**Whereas**, a number of AMPI's local-chapter leaders and associates have demonstrated their strong commitment to forging these mutually beneficial relationships by attending the 2012 Texas REALTORS® Conference in San Antonio, and

**Whereas**, Texas REALTORS® value their partnership with AMPI and recognize the strategic importance of Mexico, and

**Whereas**, Texas REALTORS® are ready, willing, and able to share information, marketing techniques, educational content, and real estate best practices with AMPI, and

**Whereas**, Texas REALTORS® have been traveling to Mexico with increasing frequency in recent years for AMPI-sponsored real estate conferences and trade missions – and are eager to receive AMPI members on future inbound real estate trade missions to Texas, and so

**Therefore**, be it resolved that this master agreement be signed on this historic day, Sept. 7, 2012, at Texas REALTORS® Conference in San Antonio. With this example, both AMPI national and the Texas Association of REALTORS® International Committee encourage AMPI chapters and local associations in Texas who desire business-building relationships to sign similar agreements, and begin the mutually beneficial process of getting to know each other during these meetings.
